

CLAIM TESTING - CORONAVIRUS

Essential Question

What happens when our interconnected human networks transmit disease?

Objective

By using their claim-testing skills, students will be able to put the current coronavirus (COVID-19) outbreak into a world history perspective.

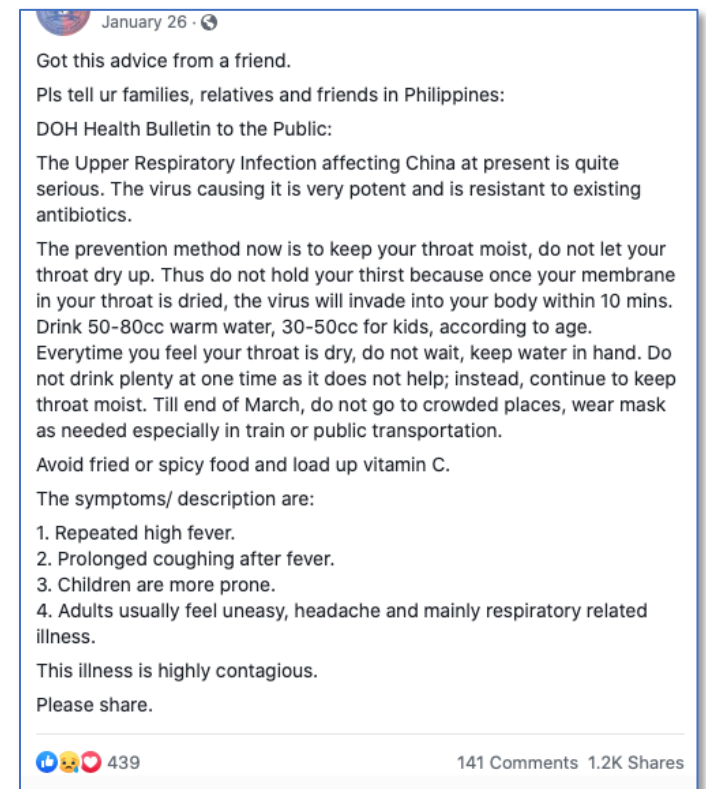

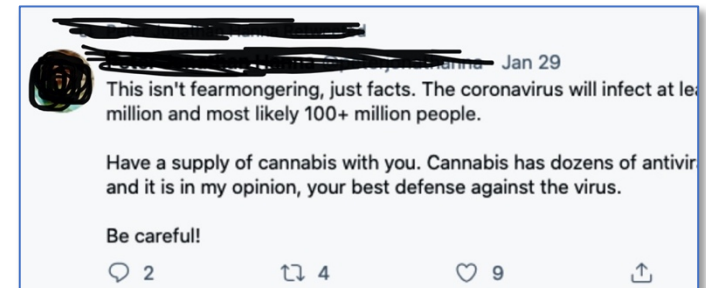

Overview

The World Health Organization (WHO) has now declared the coronavirus outbreak a global health emergency. The WHO currently reports almost 110,000 confirmed cases of the virus worldwide, with 3809 deaths. China has more than 80,000 confirmed cases with 3123 deaths. The US now has 213 confirmed cases to date and 11 deaths.

Task

Use the claim testing worksheet to evaluate the claims made in each of the following images and sources:

- [Did The Simpsons also predict coronavirus?](#)
